

The "Do Not Call" legislation as currently enacted in New Jersey should remain as is. I no longer am bothered by unwanted solicitations at all hours of the day. In fact I would like to include on the "do not call" list Political based calls and Non-Profit calls. A phone call from these organizations has the opposite effect on me from what I think they are trying to attain. I am totally turned off by these unsolicited phone calls. Please keep NJ's stringent "Do Not Call" legislation in place!!! Thank you.
